# OPEN EDUCATION HANDBOOK

What is it?

- It is a living web document targeting educational practitioners and the education community at large.
- It is the result of a crowd-sourced initiative led by the Open Education Working Group.
- Drafted over a series of online and offline events including booksprints and focused mailing list discussions.
- Available in Booktype, HTML, PDF, Epub, Floss Manuals and on Wikibooks.

What does it contain?

- Broad coverage considering both practical and factual areas and more discursive topics.
- Chapters include: Open Education Resources (OERs), Open Licences and Copyright, Open Education in Policy and Practice, Open Data, Open Communities.
- Includes an extensive glossary, a list of editor tools for remixing OERs, FAQs and links to further resources.
- Links to interactive timemap of Open Education.

What next?

- Version translated into Portuguese in February 2014.
- Edited edition released November 2014.
- Slides created for Slidewiki based on content.
- Continues to be edited by community.
- Hope to integrate 'Open Facilitator stories'.
